

Before applying the AnimationEffect="CarouselAnimationEffect"

After applying the AnimationEffect="CarouselAnimationEffect"

The image zooms in.

Here is the code used for it:

```
<div class="control-section default-carousel-section">
  <div class="control-container">
    <SfCarousel>
      <ChildContent>
        <CarouselItem>
          <figure class="img-container">
            
            <figcaption class="img-caption">Ackbar</figcaption>
          </figure>
        </CarouselItem>
        <CarouselItem>
          <figure class="img-container">
            
            <figcaption class="img-caption">C3P3</figcaption>
          </figure>
        </CarouselItem>
        <CarouselItem>
          <figure class="img-container">
            
            <figcaption class="img-caption">Chewbacca</figcaption>
          </figure>
        </CarouselItem>
        <CarouselItem>
          <figure class="img-container">
