

Description

Hi, Need to implement the tab property and tab index properties to form control like (combo box,checkbox) . this is done by macro in MS Excel. eg: checkbox.tabindex=9;

Notes

Need to provide VBA script support in XlsIO to run at run time.

MSDN link to add scrpits in excel;<http://support.microsoft.com/kb/219905>

I could not find the Intreop support for run the VBA scripts at run time.
